

# GRAHAME MÉNAGE

## PET PORTRAITS

Life-like custom pet portraits hand painted by talented artist Grahame Menage. Give a lasting gift to honor the special animal in your life.

Grahame's pet portraits are created on canvas-covered wood panels.

### HOW IT WORKS

Before I begin, we'll need to have some back and forth to ensure I can meet your expectations. Once I receive your commission I will set up a short Zoom call to discuss your order in more detail. It's always great if I can virtually meet the pet in question too!

In order to create your bespoke artwork, I will need a minimum of 4-5 clear, good quality photographs of your pet. The more photos to choose from, the better painting I can deliver.

### Tips for photos:

In a perfect world, the photos should be sharp, large file size. If they can include:

- Side lighting
- Close-up of the face
- A straight on or 3/4 pose
- At eye level
- And looking at the camera.

Animal eyes are highly reflective, and a flash can completely wash out the detail so avoid using a flash if possible. If your pet looks sad in the photos provided, it can be tough to make him or her look happy.

Acceptance of the commission is based on whether or not I can work with the reference photos provided. Completion time will vary, depending on my workload, but usually it's around 4 weeks from receipt of approved reference photos.

### PRICING

Prices are for one animal, additional pets will incur an additional fee.

12"x16" - \$2000

14"x20" - \$3200

16"x20" - \$4700

24"x30" - \$7000
